

NYC Emerging Technologies Summit

Date: 10/28/2011

Time: 2:00PM - 5:00PM

Location: Uris Auditorium

NYC Emerging Technologies Summit is a showcase for life sciences technologies developed at 10 New York City universities and research institutions. The event features short presentations of more than 20 innovations from researchers at academic and clinical labs who are driving today's most promising, investor-ready innovations. The bioscience technologies range from therapeutics to medical devices and are available for commercialization through licensing agreements or creation of new companies. Key attendees will include angel investors and venture capitalists as well as business development, licensing, and senior executives from biotech, pharmaceutical, and biomedical companies.

The presentations and poster session will be followed immediately by a cocktail and networking event at the Griffis Faculty Club.

City Council Speaker Christine Quinn will make remarks about the importance of the bioscience sector to New York City at approximately 4 p.m.

Registration is free. Please register at: <http://nyctechsummit.eventbrite.com>
