

**Application Form for Request of Samples from NHLBI PEGT  
Pre-Clinical Grade Vector Production Core (PEGT-PCGVPC)**

Date:

Principal Investigator:

Institution:

Shipping Address:

Phone:

Fax:

E-mail:

NHLBI Grant number:

Grant title:

Brief description of studies proposed in Grant (may use grant abstract, up to 375 words)

Brief description of how requested materials will benefit your research: (up to 100 words):

Summary of experimental protocol for this study: (up to 150 words)

Describe the data you hope to gather through the requested material:  
(up to 100 words)

Specify the type of vector(s) you request:

Adenovirus

Retrovirus

Plasmid   
DNA

Describe the gene you want the PEGT-PVCCS to clone into/with the vector(s):  
(up to 100 words)

Estimated total amount of vector(s) needed for the proposed study:

Please include any additional comments: (up to 100 words)

**Note: Application process will usually take 2-4 weeks to complete. Upon approval requested cells will be sent by overnight service within a few days.**
